

CLIMATE CHANGE ADAPTATION AND EXERCISES OF INDIGENUITY

March 31, 2016
1:30 to 2:30 p.m.
NOAA - David Skaggs
Research Center
Multipurpose Room GC402

“Technology, community, communication and culture are intimately related. It is impossible to imagine any one of the four existing among human beings without the other three.”

Dr. Wildcat will share indigenous ingenuity or “indigenuity” that draws on the strength and resilience of American Indians to adapt to challenges such as climate change.

Guest Speaker

Dr. Daniel R. Wildcat
Professor and Convener of the
Indigenous Peoples’ Climate
Change Working Group
Haskell Indian Nations University

Dr. Wildcat's talk is part of a two day Haskell students and faculty visit to NOAA Boulder on March 31 and April 1, 2016.

Sponsored by the OAR EEO Office and the Boulder Labs Diversity Council
For more information: Georgia Madrid 303-497-6732 or Debe Dailey-Fisher 303-497-6893.

This presentation is the kick-off to the 2016 Cultural Diversity Speaking Series and Tribal Relations Seminar. Information posted at:
