ABOUT MONIQUE BASKIN

Monique is an International Research Science Policy Advisor in OAR's International Activities Office. She is responsible for supporting NOAA/OAR's priorities in atmospheric and climate research by providing analysis and evaluation of relevant international programs and activities; fostering relationships with international professional counterparts; developing and carrying out strategy, program/project development and implementation activities through effective planning and administration. Her portfolios include: World Meteorological Organization (WMO), atmospheric science related bilateral meetings with Korea, China, UK and European Centre for Medium-Range Weather Forecasts and Arctic and Circumpolar activities.

Monique's educational credentials include:

- Master of Arts, International Affairs (Focus: Environment), The George Washington University, Washington, DC. and Graduate Certificate: Environmental Health Science and Policy
- Master of Arts, National Security/Political Military Affairs (Northeast Asia), Naval Postgraduate School, Monterey, CA
- Master of Science, Exercise Physiology, U.S. Sports Academy, Daphne, AL

She enjoys swimming, traveling, engaging with different cultures and spending time with her 9-year old daughter.
